## **SHORT DESCRIPTION OF THE INVEST IMPORT COMPANY**

Activities of Invest-Import are grouped in three basic departments:

- Investment projects department
- Trade department
- Economic-financial, legal and administrative department

### **Investment projects department**

We know the complexity of our client's modern industrial plants-we have built them. Know-how, cost-effective implementation, flexibility and tailored solutions are significant success factors today. Our all-round service provides safety in production planning and cost budgeting. We have geared the individual segments of our service system to the needs of our clients. Our all-round system covers activities from research and marketing, consulting, finance, planning up to standby maintenance and repair services, reconstructions, modifications, revamping, erection, engineering and contracting worldwide.

Main fields of activities:

- |                               |              |
|-------------------------------|--------------|
| ▪ Urban Development           | Housing      |
| ▪ Rural Development           | Industry     |
| ▪ Infrastructure              | Power        |
| ▪ Water supply and sanitation | Pipelines    |
| ▪ Telecommunication           | Ports        |
| ▪ Agro industry               | Mines        |
| ▪ Ecology                     | Construction |
